

PHILIP MAHAMA AKPANYI

SYSTEMS ANALYST

Rua Rotary, 297, Mecejana, Boa Vista, Roraima, Brazil

✉ pakpanyi@gmail.com ☎ +55 95 9 9137 5420 🌐 <https://dev-philip.vercel.app/>

Full Stack Software Engineer with over 4 years of professional experience designing and developing scalable applications and enterprise software using Java, Spring Boot, Node.js, React, Next.js, Angular, Typescript and PostgreSQL.

Experienced in delivering solutions for government institutions, private companies, SaaS platforms, and international clients, participating in the entire software development lifecycle—from requirements gathering and database modeling to deployment and client support.

Enthusiastic about clean architecture, modern web technologies, and solving real-world problems through software. Currently expanding my mobile development skills with React Native while continuing to build full-stack applications.

Professional Highlights

- 4+ years of professional software development
- Full Stack Development (Java + Spring + React + Node.js)
- Government software development experience
- International project for a French client
- Creator of MentoringHub SaaS platform
- Strong experience with PostgreSQL database modeling
- Fluent in English and Portuguese
- Currently learning React Native

TECHNICAL SKILLS

Programming Languages

- Java
- JavaScript
- TypeScript
- SQL

Frontend

- React
- Next.js
- Angular
- HTML5
- CSS3
- Tailwind CSS

Backend

- Spring Framework
- Spring Boot
- Node.js
- Express.js

Mobile

- React Native (Currently learning)
- Flutter (Basic knowledge)

Databases

- PostgreSQL
- Prisma ORM

Tools & Technologies

- Git
- GitHub
- Maven
- JIRA
- Kanban
- Microsoft Teams
- REST APIs
- Agile Methodologies
- Database Modeling
- Unit Testing
- Responsive Design

EDUCATION

- **Senior High School Degree in General Science**
Ghana Secondary Technical School,
G.S.T.S – Takoradi, Ghana
Completed: 2012
- **Bachelor's Degree in Computer Science**
Federal University of Roraima, UFRR,
Brazil
Completed: 2026

EXPERIENCE

- **English Teacher (Intern)**
NUCELE – Federal University of Roraima
March 2015 – December 2017
 - Taught English to Brazilian students.
 - Prepared lesson plans and classroom activities.
 - Organized cultural and educational events.
- **IT Department Intern**
Federal University of Roraima
September 2018 – September 2020
 - Managed institutional websites.
 - Trained university departments on website administration.
 - Assisted in website maintenance and troubleshooting.

Technologies: Joomla, HTML & CSS

- **Software Developer (Intern)**
Social Me
Boa Vista, Brazil
September 2020 – June 2021
 - Assisted in frontend development using React.
 - Provided technical support when needed.
 - Participated in collaborative software development.

Technologies: React, JavaScript, Chakra UI

- **Software Developer**
Social Me
Boa Vista, Brazil
January 2022 – October 2023
 - Developed responsive interfaces for enterprise applications.
 - Improved usability and user experience.
 - Collaborated closely with UI/UX and backend teams.

Technologies: Next.js, Tailwind CSS, Chakra UI

- **Systems Developer**

Secretariat of State for Digital Government (SEGOD)

Boa Vista, Brazil

March 2022 – January 2025

- Developed full-stack applications for government institutions.
- Participated in requirements gathering and solution design.
- Modeled PostgreSQL databases.
- Implemented REST APIs using Spring Framework.
- Developed responsive web interfaces using Next.js.
- Provided technical support and end-user training.
- Participated in official meetings to treat demands by other secretariats.

Technologies: Java, Spring Framework, Next.js, PostgreSQL, Maven, WildFly, JBoss

- **Full Stack Developer**

Information Technology Solutions (STI-RR)

Boa Vista, Brazil

February 2025 – April 2025

- Refactored REST APIs developed with Spring Boot.
- Implemented unit tests to improve software quality.
- Assisted in the migration of company systems to Flutter.
- Collaborated on restaurant management software.

Technologies: Spring Boot, PostgreSQL, Flutter, Java

- **Systems Analyst**

Paulo Feitoza Foundation (FPF Tech)

Manaus, Brazil

April 2025 – February 2026

- Worked on an international software development project for a client in France.
- Developed Angular interfaces for router management systems.
- Implemented sprint tasks and integrated features into the client's Git repositories.
- Collaborated with distributed team members following Agile and Kanban methodologies.
- Participated in code reviews and software maintenance.
- Participated in alignment meetings with the client.

Technologies: Angular, Git, JIRA, Kanban, Microsoft Teams

PROJECTS

- **School Games Management System**

Technologies: Java, Spring Framework, JSF, JSP, PostgreSQL

Developed a management platform for school competitions used by the State Department of Education and Sports (SEED).

Features included:

- Competition management
- School registration
- Student registration
- Administrative dashboards

- **Job Center**

Technologies: Next.js, Spring Boot, PostgreSQL

Developed a recruitment platform connecting employers and job seekers.

Main features:

- Job search

- Resume management
 - Recruitment process management
 - Authentication
 - Secure REST APIs
- **MentoringHub**
Full Stack SaaS Platform
Technologies: Next.js, Node.js, Express, PostgreSQL, Prisma ORM, Tailwind CSS, WebSockets, React queries
A mentoring platform developed as my Bachelor's capstone project to connect mentors and mentees.
Main features:
 - Authentication
 - User profiles
 - Mentor recommendations
 - Real-time chat
 - Mentoring rooms
 - Scheduling
 - Notifications
 - Resource sharing
 - Progress tracking
 - Messaging
 - Community post feed

LANGUAGES

- English – Native/fluent
- Portuguese – Fluent
- Spanish – Basic

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication
- Continuous Learning
- Attention to Detail
- Adaptability
- Mentoring
- Leadership
- Time Management

ACHIEVEMENTS

- Creator of the MentoringHub platform
- Worked on international software development projects
- Developed systems for government institutions
- Participant in AgroTech Hackathon (2024)
- Programming Marathon participant (2017, 2018, 2024)

- Organizer of Africa Day cultural events (2014–2018)
- Active member of the Roraima Full Stack Dev community
